Phone: (+1)-510-423-1353

ADDRESS
Gates Computer Science 254,
Stanford University,
Stanford, CA 94305.

Education

University of California, Berkeley   **2011 - 2016**
Doctor of Philosophy in Computer Science
Advised by Michael I. Jordan and Martin J. Wainwright

University of California, Berkeley   **2011 - 2013**
Master of Arts in Statistics

Tsinghua University   **2007 - 2011**
Bachelor of Engineering in Computer Science
Supervised by Andrew C. Yao

Employment

Post-doc Research Fellow at Stanford University   **2016 - Now**
Intern at Baidu   **Winter, 2015**
Intern at Microsoft Research Redmond   **Summer, 2014**
Intern at Google Mountain View   **Summer, 2013**
Intern at Microsoft Research Asia   **2010 - 2011**

Awards & Honors

2017   Best Paper Award, Conference on Learning Theory (COLT).
2016   Outstanding Reviewer Award, International Conference on Machine Learning (ICML).
2015   Baidu Fellowship.
2013   Microsoft Research PhD Fellowship Finalist.
2011   UC Berkeley EECS Department Fellowship.
2011   Outstanding Undergraduate Dissertation Award.
2011   Boeing Scholarship.
2010   Tencent Scholarship for Excellent Academic Performance.
2006   Silver Medal in Asian Physics Olympiad.
2006   Gold Medal in National Physics Olympiad (5th among 400,000 participants).

Research

My research explores the frontiers of Artificial Intelligence technology by developing algorithms, building systems and proposing fundamental theory. Below is a list of projects that I have been working on (with publication references):

- Semantic parsing for question answering systems [C1].
- Deep learning and non-convex optimization [C2,C3,C4,C5,C6].
- Distributed algorithms for machine learning [J5,J6,C7,C8,C15].
- Programming interface for parallelizing stochastic algorithms [M1] (*open source project*).
- Convex optimization [J1,C9].

- Fundamental trade-offs between communication, computation and statistical accuracy [C11,C13,M2].
- Crowdsourcing [J4,C10].
- Personalized recommender systems [C12].
- Click modeling for web search and online advertising [C16,C17,C18,C19,C20,C21] (*Improved +0.8% NDCG on Microsoft Bing*).
- Theoretical statistics [J2,J3].
- Theoretical computer science [J7,C22].

Teaching

Graduate Student Instructor, Introduction to machine learning, UC Berkeley **Spring, 2015**
Graduate Student Instructor, Randomized algorithms for matrices and data, UC Berkeley **Fall, 2013**

Service

Journal Reviewer: Journal of Machine Learning Research, Annals of Statistics, Mathematical Programming, ACM Transactions on the Web.
Conference Reviewer: ICML (2013 -), NIPS (2013 -), AISTAT (2015 -), IJCAI (2015 -), ISIT (2015).
